Amparo,

Attached are additional public submissions sent to the DFO (Diana Wong) during last week's TSCA SACC meeting. These should be added to Docket EPA-HQ-OPPT-2019-0501 as public comments.

Note that some include copyrighted materials. Note also that the two email messages include Diana's transmittal email to me, which can be removed.

Please let us know if you have any questions.

Thanks.

Steve
